VIDEO CONFERENCING STUDENT EXPECTATIONS

- The Brandywine Student Code of Conduct and Acceptable Use Policy are in effect while participating in video conferencing sessions
- Set up a space for learning:
 - Consider where you will be comfortable sharing your video and audio
 - Be mindful of what is in your background
 - Sit in front of a light source or next to one; not with the light source behind you shining towards your camera
 - Choose a space that is quiet with limited distractions
 - Be sure to have a flat and stable surface to work on your device and for written assignments
- Make sure you have all your necessary supplies and materials before class starts
- Arrive to class on time and ready to learn
- Close all tabs that are unnecessary for your learning activities
- Turn your camera on when directed to do so by your teacher
- Mute your microphone if you are not speaking to prevent background noise
 - Device microphones are very sensitive; shuffling papers and clicking pens can become distracting to others
- Wear earbuds or headphones with a microphone if available
- When in breakout rooms be sure to follow the teacher's directions for learning expectations
- Remain engaged during the entire learning session
- Dress Code:
 - The dress code is posted on our website: <https://www.brandywineschools.org/Page/77>
 - If a student is wearing something on their head, the teacher may ask them to remove it so that visual contact can be made and unnecessary distractions eliminated.
 - All tops must cover the shoulders, chest, and midriff.
 - Bottoms must be at least mid-thigh in length if visible on video.
 - Clothing designed to be worn as undergarments is not permitted.
 - No inappropriate, suggestive, derogatory, or offensive images or phrases on clothing are permitted.
- Do not take videos or screenshots of others while on video conferences
- Seek out assistance from teachers when needed
