The Brandywine School District is proud to offer a Spanish Language Immersion Program at three elementary schools: Claymont, Lancashire, and Maple Lane Elementary Schools. This program will provide some of our youngest learners with an exciting opportunity to learn and engage in two languages and cultures - English and Spanish - during the school day.
• Each school year, a new cohort of kindergarten students begins its Spanish Immersion journey. Immersion classes follow the same curriculum in all content areas (reading, writing, math, science, and social studies) as all other classrooms and use many of the same materials. Two teachers instruct students in this program - one for half the day in English, and the other for half the day in Spanish. In the Spanish-speaking classroom, the teacher speaks entirely in Spanish and use a range of strategies including pictures, songs, games, body language, facial expressions, and more.
WHY IMMERSION?

Dual language immersion programs help students attain high levels of proficiency in a second language. Young children in particular thrive in this type of environment and are more adept at language acquisition.

WHY SPANISH?

In addition to being the second most widely spoken language in the United States, Spanish is an important language in the global business community. Fluency in Spanish opens doors to many career opportunities in the U.S. and abroad.
