End Date for Students:
June 19, 2020

The district’s goal is to maximize remote learning time for students. In an effort to do so we have adjusted our 19/20SY calendar.

- Spring break was removed from the school year calendar and will be used for remote learning.
- Parent/teacher conferences were removed as a day to have no students and incorporated into the teachers’ day to allow for continuation of remote learning for students.
- The Teacher’s Negotiated Agreement requires a professional responsibilities day (no students) at the end of 3rd marking period. This day has been shifted to a remote learning day for students.
- Professional development days (4/2, 4/28) have been removed from the calendar and designated as remote learning days for students.
- Professional development days at the end of the school year (6/16, 6/17) have been designated as school days for students based on the anticipated return to school on May 18th.

Delivery Model

Guiding Principles

- Focus on accessibility
- Prioritize essential skills and critical concepts
- Flexibility and adaptability
- Support students, teachers, administrators and families

Teacher Schedules

- Consistent with the current workday, teachers shall spend 7.0 hours each day, during normal working hours engaging in professional responsibilities.
  - Approximately 2 hours per day:
    - instruction
    - monitoring and providing students feedback
    - communicating with families
    - updating courses
    - remaining connected to school communication (email)
    - planning and preparation
    - professional learning and development
  - 1 hour per day will be designated as building meeting time guided by the principal.
    - This time could be used for a principal to schedule a staff meeting, grade level/content PLC, or other group/individual meetings.
  - Teachers and Co-teachers (special education, ESL) will be online, available to provide instruction and support to students/families. This can be via discussion posts, video conferencing, or other safe methods of communication (approximately 4 hours per day). Related service providers (OT, PT, Speech) and support staff (school counselors, behavior interventionists, psychologists, etc.) will be individualizing their support based on student/family need.
    - Elementary 9-11am and 12-2pm
    - Secondary 9-11am and 1-3pm (following Block Schedule each hour)

Curriculum Resources

- Students will have access to digital materials and other instructional activities to remain engaged in learning during the time schools remain closed.
- Resources will be designated as "Core Materials" or "Supplemental Materials."
  - Core Materials will be used as the main instructional programs for all students in the designated grade levels.
Supplemental Materials will be available for enhancement/enrichment activities, conducting research, or recreational reading.
